

For Immediate Release

2006 CORRECT CRAFT AIR NAUTIQUE 210

ORLANDO, FL (August 22, 2005) —Correct Craft, Inc. announces the 2006 Air Nautique™ 210. The boat that launched an industry.

Power, beauty and soul. This 21 foot boat has been re-vamped this year with all-new hull side graphics, a re-designed – elongated windshield, stainless steel cup holders and an all-new Flight Control Tower®, with optional spinner board racks for easier access to your boards.

Wakeboarders are always pushing the envelope, and that’s one reason it is called “the” big-air boat. Scott Byerly stated it best: “Quality, performance and company support are what have made me feel like I am a part of the family, and wouldn’t trade it for the world.”

With 850 pounds of ballast for peaky wakes with lips that kick and an optional 375 horsepower PCM® engine that jumps you up on plane, this boat is the single-best wakeboard boat on the planet. Add the Team package with PerfectPass®, keyless ignition, 320 watt amp, a 10 inch Polk/MOMO® subwoofer, Clarion® digital stereo remote control and flight clips, you’ll be riding in style.

Celebrating over 80 years of excellence in the marine industry, Correct Craft is a family owned manufacturer of world-famous wakeboard, waterski, crossover and family recreational boats. Correct Craft, Inc., a Florida-based company, is known for leading the industry in technology and innovative hull designs.
