

For Immediate Release

2006 CORRECT CRAFT NAUTIQUE 226

ORLANDO, FL (August 22, 2005) —Correct Craft, Inc. announces the 2006 Nautique® 226. Big on space, luxury and fun.

More of everything you look for in a Nautique. We make leading an industry look easy, and all we did was make towing skiers, tubers and wakeboarders easy for families of any size. The Nautique 226 Limited Edition is our largest boat, the flagship of luxury and space. The 22 and half foot boat with a beam of 96 inches sits deep and allows plenty of legroom and storage. It has seating for 12, with an open walkway from bow to boarding platform, so you're not climbing all over each.

The long list of amenities includes Polk/MOMO® directional speakers; stainless steel grab rails, an optional 3-speed heater with defroster. Storage is big. So is power, provided by a drive system that delivers quick acceleration, impressive top speed and fuel economy. Of course, you get the smooth handling Nautique is known for, on everything from big lakes to intercostals waterways and beyond. The Limited Edition package adds custom coded keyless ignition, Faria® digital gauges and much more.

Celebrating over 80 years of excellence in the marine industry, Correct Craft is a family owned manufacturer of world-famous waterski, wakeboard, crossover and family recreational boats. Correct Craft, Inc., a Florida-based company, is known for leading the industry in technology and innovative hull designs.
