Every Detail Matters

Dear Nautique Family,

Many of life's most meaningful moments happen on the water. Early mornings at the dock, afternoons shared with family and friends, and golden hour sunset sets all contribute to the traditions that are passed from one generation to the next. They remind us that the best experiences in life aren't found on a screen, they're created together. At Nautique, those moments inspire us to deliver! We craft products with purpose - not simply to build exceptional boats, but to create experiences that bring people together, inspire lifelong passions, and enrich lives. That purpose has guided Nautique for more than a century, and it continues to shape every innovation, every decision, and every boat we build.

As we introduce our 2027 product lineup, that purpose is reflected in every model we create, including the all-new S-Series. Every Nautique begins with a simple question: How can we make time on the water even better? By listening to our customers and understanding how they live, play, and create memories together, we build products that exceed expectations while fulfilling lifelong dreams. The all-new S-Series is the latest expression of that philosophy, delivering the capability, performance, and craftsmanship watersports enthusiasts deserve. Throughout our history, we've challenged convention, raised the standard, and remained committed to defining what's next for those who share our passion for life on the water.

Behind every Nautique is a remarkable team of people who believe in something bigger than the products we build. From the talented team who design and craft every boat, to our dedicated dealer network and passionate owners around the world, we are united by a shared commitment to excellence and a belief that the best things in life are meant to be experienced together. As we begin the next chapter in Nautique's story, that commitment remains stronger than ever. We will continue to pursue excellence without compromise, build the world's finest towboats, and foster a community where everyone who shares a passion for life on the water aspires to belong.

Faithfully,

Greg Meloon - President
Nautique Boat Company

"Commit to the Lord whatever you do, and he will establish your plans."

- Proverbs 16:3

New for 2027

For Nautique, innovation is tradition. Each new model is a bold leap forward – surpassing every expectation with elevated comfort, design refinements that outpace anything on the market, and engineering solutions that deliver uncompromising performance. By anticipating industry trends and the evolving needs of its customers, Nautique ensures every boat in the line-up offers an indulgent, on-water experience for the whole family - handcrafted to last for generations.

S-Series

New for 2027

The all-new 23-foot S23 and 25-foot S25 are a confident statement of intent – crafted to deliver the most complete Nautique experience to date. Guided by a philosophy that is unmistakably made for more, the S-Series unites heritage and innovation in a way that feels both timeless and progressive. Every element has been thoughtfully refined to offer greater capability, elevated comfort, heightened craftsmanship, and more opportunity on the water. The result is a series that never asks you to compromise, while seamlessly balancing performance, luxury, versatility, and design.

From an entirely new hull design engineered to produce crisp, consistent wakes and the most versatile, high-performance surf wave to date, to an interior designed with elevated comfort, intuitive functionality, and expanded storage space, the S-Series adapts seamlessly to every kind of day on the water. It creates room for beginners to build confidence, for experienced riders to push further, and for everyone on board to feel completely at home.

The S-Series is not defined by a single strength, but by how seamlessly it brings them all together. More memories. More connection. More time spent doing what you love.

P SERIES

G25 PARAGON | G23 PARAGON

Luxury Without Limits

PARAGON | Super Air Nautique G25 Paragon

The G25 Paragon represents luxury without limits. Every detail has been meticulously considered, from its bold exterior lines and sophisticated design language to the premium materials and bespoke finishes found throughout the spacious interior. Purpose-built to accommodate larger crews in uncompromising comfort, it pairs exceptional refinement with the award-winning performance that has made the G-Series the benchmark for wakes and waves worldwide. Whether exploring expansive waterways or spending a full day on the lake, the G25 Paragon delivers an elevated experience for everyone onboard.

5-Year, 1,000-Hour Warranty

Where your Nautique Meets our Guarantee

Backed by over a century of innovation and trust, our 5-Year, 1,000-Hour Transferable Warranty* reflects Nautique's commitment to your peace of mind. We've built our reputation on standing behind every boat we craft, and that legacy continues today so you can enjoy your Nautique to the fullest, with complete confidence in its quality and performance.

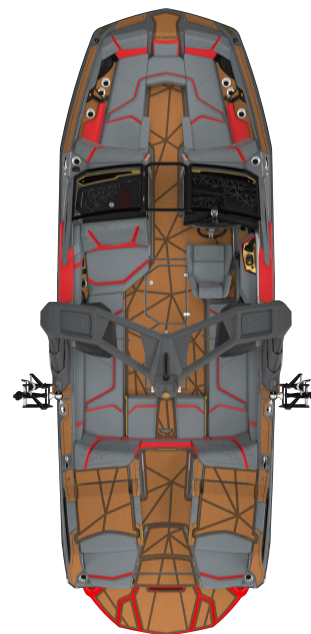

*Nautique warrants to the original owner or user, that each new 2027 Nautique boat, as originally manufactured by Nautique, shall under normal authorized use be free of defect in material and workmanship for a period of five (5) years or 1,000 hours from the date of delivery (whichever comes first). This warranty applies to factory-installed components including boat parts, options or other components not manufactured by Nautique Boat Company and is transferable one-time only to the second owner.

Craftsmanship

Handcrafted With The Highest-Quality Materials

At Nautique, we take great pride in our commitment to craftsmanship, sourcing and incorporating only the most durable, high-quality, and luxurious materials available so that your Nautique is built to last. Each Nautique is carefully constructed by hand with meticulous attention to detail, prioritizing quality at every stage of production. This dedication to quality is driven by a vision for Nautique Boats to withstand the test of time, ensuring that future generations can enjoy the same unforgettable experiences on the water that today's owners cherish.

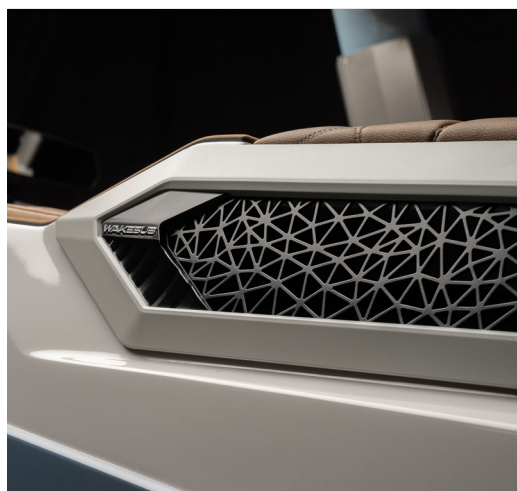

Experience Sound Like Never Before

Our partnership with JL Audio ensures the highest quality sound on every Nautique model. Each boat is carefully calibrated by engineers from both Nautique and JL Audio to create the perfect audio environment. The JL Audio stereo system components are designed to work together seamlessly, delivering crisp, clear sound through the MM105 head unit, speakers, and amplifiers. Depending on the model, upgraded packages are available, featuring JL Audio subwoofers, tower speakers, additional zone controls, and exclusive technologies like WaveFront™ and WakeSub™.

Over 50 Years of Performance and Reliability

When you choose a Nautique, you're not just selecting a world-class towboat – you're choosing the most advanced propulsion system in the industry. We offer powerful, reliable performance with our gas engine offerings from our sister company, Pleasurecraft® Marine Engines (PCM), that have been precision-engineered to meet the standards of Nautique owners – ensuring every day on the water is nothing short of extraordinary. For those seeking diesel power, select Nautique models can be equipped with the robust Yanmar Marine 8LV engine. When it's time to choose your Nautique, you can have peace of mind knowing you're selecting from the best options available.

GAS PROPULSION

PCM ZZ8R – The PCM ZZ8R harnesses General Motors' most powerful base engine ever produced, expertly combining immense power with the advanced features that define PCM excellence. Built from the ground up with cutting-edge direct-injection and supercharged technology, the ZZ8R delivers unmatched efficiency and performance in its class. Capable of running on 89 Octane fuel, it stands as one of the marine industry's most advanced gasoline engines.

HP: 570 / Displacement: 6.2L (376 c.i.d.) / Torque: 600 Ft-Lb

PCM ZZ8S – The PCM ZZ8S stands at the forefront of marine engine technology, built upon General Motors' most powerful production base engine. Delivering a commanding 630 horsepower and 665 foot-pounds of torque, this engine combines cutting-edge direct-injection and supercharged technology for exceptional performance and efficiency. Designed to run on 89 Octane fuel, the ZZ8S delivers reliable power engineered to meet the highest standards of marine propulsion.

HP: 630 / Displacement: 6.2L (376 c.i.d.) / Torque: 665 Ft-Lb

PCM ZZ6 – Featuring advanced General Motors direct-injection technology, the ZZ6 offers robust power and impressive fuel efficiency, making it the perfect engine for watersports enthusiasts seeking elite performance all summer long.

HP: 450 / Displacement: 6.2L (376 c.i.d.) / Torque: 465 Ft-Lb

PCM ZZ5 – A 5.3L engine featuring advanced General Motors direct-injection technology, the ZZ5 delivers impressive power, excellent reliability, and enhanced fuel efficiency, making it an ideal choice for a full day on the water.

HP: 335 / Displacement: 5.3L (325 c.i.d.) / Torque: 405 Ft-Lb

YANMAR DIESEL PROPULSION

8LV – Offered on the GS22, GS24, G-Series, S-Series, and Paragon models, the Yanmar 8LV diesel engine delivers high torque and an exceptional power-to-weight ratio. This turbocharged diesel engine provides a fuel-efficient option, ideal for maintaining low RPMs even when the boat is fully loaded.

HP: 370 / Displacement: 4.5L (272 c.i.d.) / Torque: 595 Ft-Lb

Coastal Edition

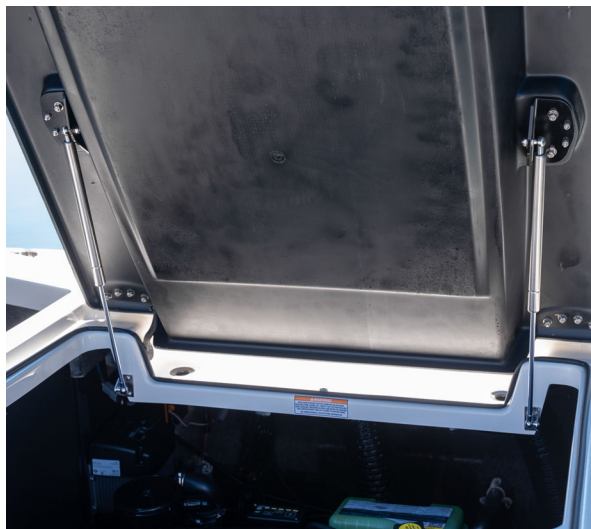

Coastal Adventures Start Here

Available across the entire 2027 Super Air Nautique line-up, the Nautique Coastal Edition is engineered for life on saltwater. If your days are spent cruising the coastline, you understand the importance of long-term durability. That's why the Coastal Edition features corrosion-resistant components throughout – helping protect key systems against the effects of saltwater exposure. Whether you're navigating tropical waters or exploring inland coastal routes, the Nautique Coastal Edition is built to thrive in demanding marine environments.
