

PRESS RELEASE

2005 CORRECT CRAFT AIR NAUTIQUE 226

ORLANDO, FL (November 12, 2004) — Correct Craft, Inc. announces the Air Nautique™ 226 for 2005. Who says you can't own a wakeboard boat that gives you the luxury and room you deserve.

The largest in Correct Craft's fleet, the Air Nautique 226 is the inboard of all inboards. The factory installed ballast system has the capacity to hold a ludicrous 900 pounds of added weight to create a monstrous wake that's perfect for long-line riding. There is no question as to why pro riders love this boat. The 226 still has the same impressive smooth pull, responsiveness and out-of-the-hole power legendary to the Nautique line.

Making its debut at the 2004 Vans Triple Crown/WWA Wakeboard Worlds, the Air Nautique 226 was used in the Pro Men's Wakeboard division instead of the Super Air Nautique 210. The 226 has a low trough and is an easy transition to the rampy wake like no other, and has room for up to twelve people. There are 65 cubic-feet of storage along with a massive 100-quart cooler so no one has to sacrifice their favorite drink or food.

Celebrating 80 years of excellence in the marine industry, Correct Craft is a family-owned manufacturer of world-famous wakeboard, waterski, and recreational boats. Correct Craft, Inc., a Florida-based company, is known for leading the industry in technology and innovative hull designs.
