TO: ALL CORRECT CRAFT DEALERS
RE: VINYL CLEANING – UPDATE FROM VINYL SUPPLIER

Correct Craft's vinyl supplier has made us aware of a change in the formula of ***Fantastic All Purpose Cleaner*** that may make it undesirable for use on Nautique interiors. In the past, we have recommended to customers to use Fantastic to clean their boat interiors.

The new formula for Fantastic now includes an *abrasive* anti-bacterial ingredient that could damage the topcoat of our marine vinyl. *Until our supplier has a chance to fully test the ramifications of this change, they suggest we refrain from using the product and from recommending its use.*

Cleaning products specifically made for cleaning vinyl, dish soap with water or 303 Aerospace Protectant, are alternative products you can use to clean and maintain the integrity of the vinyl.

CORRECT CRAFT, INC.
