

SERVICE Alert 2009

14700 Aerospace Pkwy * Orlando, FL 32832 * Phone 407-855-4141 * Fax (Customer Care) 407-858-2545

TO: ALL NAUTIQUE DEALERS

July 23, 2009

RE: 210, 220 and 230 equipped with the optional: Pop-up Pylon/Lift Ring Combo.

WARNING: Avoid possible injury or death caused by a falling boat or component parts becoming projectiles. Do not lift the boat or tow water sports participants from the Pop-up Pylon/Lift Ring Combo until specific Correct Craft Inc. service has been performed.

Correct Craft is requesting that dealers and customers that have this option installed on their boat use an alternative means of lifting the boat and towing water sports participants until service, to be specified by Correct Craft, is performed. Correct Craft will shortly distribute parts and instructions for a field fix designed to eliminate the possibility of the pylon/lift ring combo unexpectedly coming apart possibly allowing the boat to fall or parts to become projectiles. This service bulletin will also specify the boats that are affected.

CORRECT CRAFT, INC.
